

Year 2 Newsletter

Spring 2

February 2019

Our Spring topic is Robots! We are really excited to be exploring the world of robots and what it would be like to only ever be controlled by instructions.

We will be exploring the style of contemporary American artist Eric Joyner and his robot creations, as well as improving drawing skills by sketching shapes and creating our own robot artwork.

In Year 2 we will also be investigating what humans need to survive with a comparison to robots as having 'never lived'. Please continue to support us by reading with your child at home.

Many thanks,
Mrs Lewis & Miss Upstone

COMING UP...

These are the topics we will be covering in the next few weeks...
