

Quick guide for Purple Mash

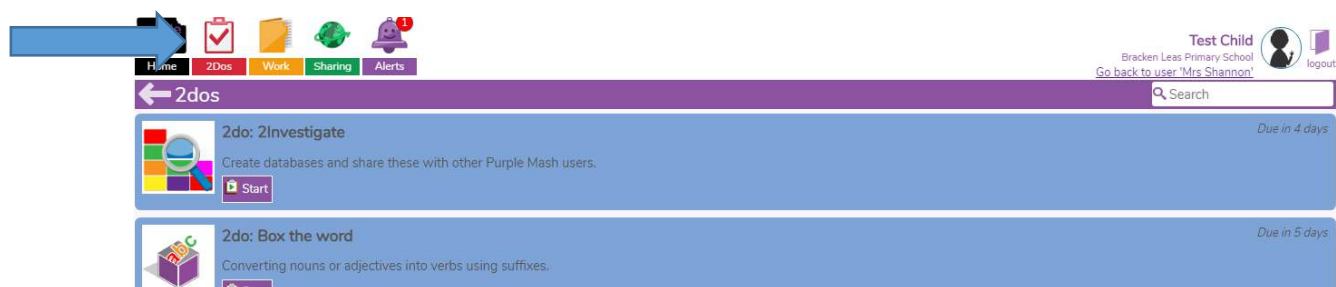

This is the home screen the children will see when they first log in.

If you click on the Alerts, it will take you to any new 2Do's set by the class teacher. Then click Go to.

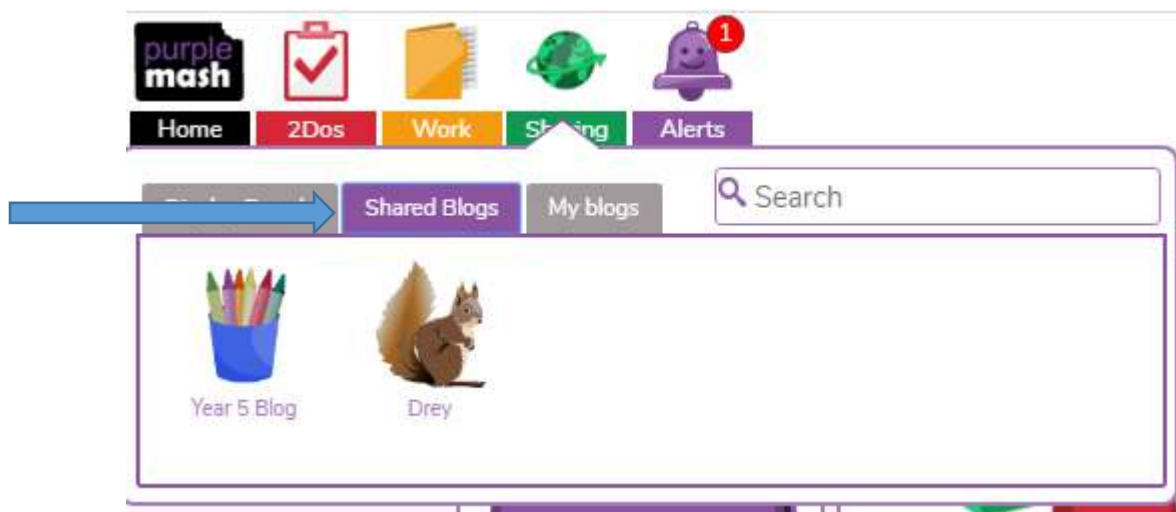

You can also access any 2Dos by clicking on the red 2Dos icon. This will show a list of all the 2Dos and the hand in dates. It will also show if a piece of work has been handed in.

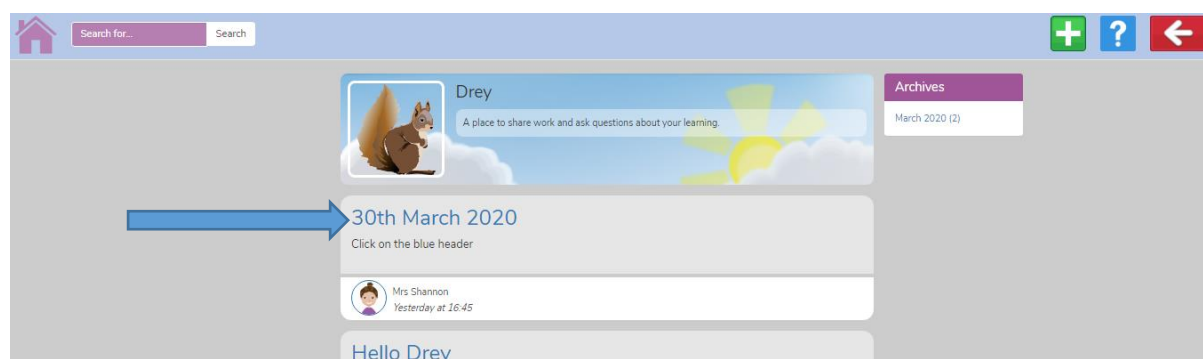

If the 2Do is a quiz, there isn't always a hand in button as the score automatically goes to the class teacher.

To access the class blog, click on the green **Sharing** icon then select **Shared Blogs**

Select the blog for your class. The blog screen is then shown (see below). To read a blog from the class teacher, hover over the blue header until the hand appears and allows you to click on it. This will allow you to read the entire blog post.

You can leave a comment at the bottom to be approved by the Class Teacher.
